The State of Health  
COLORADO’S COMMITMENT TO BECOME THE HEALTHIEST STATE

Office of Gov. John Hickenlooper, April 2013

We have the opportunity to make Colorado the healthiest state by building on our collective strengths of innovation and collaboration. Colorado’s existing healthcare system is unsustainable, and too often, individuals are not receiving the right care at the right time in the right care setting. We must build a comprehensive and person-centered statewide system that addresses a broad range of health needs, delivers the best care at the best value, and helps Coloradans achieve the best health possible. The State of Health is a declaration of our administration’s commitment to making Colorado the healthiest state and outlines the following initiatives where we can have the greatest impact:
